## PROJECTS

### Student Database Management System

*Jan 2018 -June 2018*

Our project has great user experience.  
Our work helps in saving valuable time and reduce the huge paper works.  
We use JAVA for backend and for frontend use HTML5, CSS3, JavaScript and sql to store data.  
Admin can store the student data and application prevents data redundancy.  
Admin can easily edit a student information.

## DECLARATION

I solemnly declare that all the above information is correct to that best of my knowledge. I am keen to continue my career and prepared to work hard in order to achieve my organization objectives.
