About Me

Pursuing Bachelor of Technology in Chemical Engineering in Lovely Professional University, Punjab. Have done an internship in RINL-VSP and one project in Coromandel Group during the bachelor's. Well-versed in some of the programming languages including C, C++, mat lab.

Work Experience

Industrial Training - June-July 2019
Coromandel International Limited, Visakhapatnam

Studied the process of manufacturing sulphuric acid in the plant, which is used in fertilizer manufacturing and different heat exchangers used in the plant. Different catalysts used in the plant are studied

Internship December 2018 to January 2019
Rashtriya Ispat Nigam Limited, Visakhapatnam

Detailed study of equipment used in MBC plant where effluents are treated. Studied the process of conversion of coal to coke in CO&CCP and about the process of obtaining by-products from the gases evolved from the plant

Education

Pursuing (7 th sem)	Bachelor of Technology, Chemical Engineering Lovely Professional University , Phagwara	CGPA: 8.78
2015-2017	Board of Intermediate Education Andhra Pradesh Narayana Junior College , Anakapalli	Marks: 975/1000
2014-2015	Board of secondary education Bhashyam public school , Anakapalli	GPA: 9.8/10

Languages

Telugu, English

Skills

C, C++, MATLAB, Communication Skills, Critical Thinking, Problem Solving, Time management, Teamwork, Chemical Reaction Engineering, Spectrophotometry
Have done some e-learning courses like fuel and combustion, industrial water system, compressors, process control and instrumentation certified by Tata Steel.

Area of Interest

Chemical Reaction Engineering, Process Dynamics and Control
