

V Amritha

Information Security Engineer

OBJECTIVE

To channelize my skills and talents towards a profession, which I can passionately perform so that not only can I unleash my true potential and attain utmost job satisfaction but also, realize personal as well as organizational goals.

WORK EXPERIENCE

Information Security Analyst (Intern)

Jul 2019 - May 2020

Intel Corporation
Bangalore, India

Got a great opportunity through Campus recruitment to intern with Intel in SOC for 10 months as an Information Security analyst where I was,

- Exposed to efficient SIEM (Splunk) and EDR tools and enrich my knowledge in modern Information Security analysis techniques.
- Work mainly concentrated on front line defence where I would handle mails and real time alerts and resolve them.
- Resolving firewall requests as well as reviewing IDS/IPS rules for SMC in network domain.
- Actively worked in content management of SIEM alerts which included rule creation and tuning.
- Got good exposure in cloud domain including AWS and Azure protection.
- Looking for opportunities where I can leverage the experience I gained, as well as apply my skills and interest in coding as well as cryptography fields.
