West Bengal 700019

Dear Mr. Saksham,

This letter is to express my sincere interest in your company for an experienced Full Stack Developer. With a Bachelor's degree in Computer Science, Master's degree in Computer Applications, and hands-on experience using PHP and JS frameworks to create and implement software applications, I am confident I will be an asset to your organization.

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization.

Your listed requirements closely match my background and skills. A few I would like to highlight that would enable me to contribute to your bottom line are:

- Highly skilled in designing, testing, and developing software
- Thorough understanding of data structures and algorithms
- Proven track record of proper documentation for future maintenance and upgrades

I've attached a copy of my resume that details my projects and experience in software development. I can be reached anytime via my cell phone, +91-7980544891 or via email at vnvisakh@gmail.com

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

Visakh Vijayan

Visakh Vijayan

Full Stack Developer

Having worked closely with all the stakeholders(client, customer and technical), I am flexible to handle pressure conditions with ease. I am also motivated to work as an individual or as a team as the situation arises.
