MCA	Jaipur National University (JNU)	2014	69%
B.C.A.	Guru Ghasi Das University (GGU)	2008	64%
Sr. Secondary	R.B.S.E.	2003	60%
Secondary	C.B.S.E.	2001	45%

Certifications:

- ⇒ 'A' Level from DOEACC, New Delhi
- ⇒ 'O' Level from DOEACC, New Delhi

Technical Exposures/skills:

- ⇒ **Operating System** : Dos, Window 98, Windows Xp, Windows 7, Windows 8.1, NT, Windows Server 2003
- ⇒ **Languages** : ABAP,C#, VB.net, Visual Basic 6.0, C, C++, Java Core, Visual FoxPro, JavaScript, XML
- ⇒ **IDE/Tools** : Visual Studio 2015, 2012, 2010, VS2008, Visual basic 6.0, Adobe Photoshop
- ⇒ **Scripting Language** : JavaScript, Vb Script, XML
- ⇒ **Database** : Sql Server 2005/2008 R2, FoxPro 2.0, MS Access and Oracle 8.5
- ⇒ **Reports** : Crystal Report 8.5, 10.0,11
- ⇒ **Utilities** : Third party tool Infragestic, Ajax, Web Services, JQuery
- ⇒ **Packages** : FoxPro 2.0, Ms Office
- ⇒ **Middleware Tool** : IIS 7.0

Project Executed:

- **Project – SAP MM, PP, PM, QM, WM**
Client:- Banswara Syntex Limited
Platform:- SAP Hana 1610
Team Size:- 10 Member

SAP MM (Material management): - I have completed SAP Consultant Training for MM module with experienced faculty with live scenarios. Material Management function as an important SAP-Module which handles material/external service procurement process, inventory management, and vendors' invoice verification in the entire organization. SAP-MM begins with determination of organization's requirements, and then follows by determination of source of supply, material procurement from external vendor or internal procurement, goods receipt in storage location and issue to production lines or costs objects including project; cost center; asset; order, and finally is finished through invoice verification. The SAP-MM implementation makes sure the inventory is enough. **My main role is to educate user in P2P business process. Business process includes Purchase Requisition, RFQ, Contract, Info Record, Maintain Quotation, Price Comparison, Vendor Selection, Maintain Condition Records, Create, Check, Post Purchase Order, MIGO (Goods Receipt), MIRO (Invoice Receipt), Invoice Verification, MRP Run.**

SAP PP: - Production Planning is the process of aligning demand with manufacturing capacity to create production and procurement schedules for finished products and component materials. SAP PP is an important module of SAP. It tracks and makes a record of the manufacturing process flows, for example, the planned and actual costs. Also, goods movements from the conversion of raw material to semi-finished goods. Handled all activity related to Production and Planning for Fiber to Garment plant in Banswara syntex limited. **My main role is to educate user to create BOM, Routing, work centers, Production version, create Production order against sales order and without sales order Etc., how to take out MIS reports? How to take FIORI reports? including training I have created lots of MIS reports in Z (ALV and smart forms). Successfully Integration done between SAP and legacy Italian software (ATF- Automatic textile federici. Is implemented to atomize finish fabric Inspection, grading and packing relevant activity.) with the help of SAP RFC.**

SAP PM (Plant Maintenance) is a module which handles the maintaining of equipment's and Enables efficient planning of production and generation schedules and provides interfaces to process control in SAP HANA 1610 system. The Plant Maintenance (PM) application component provides you with a comprehensive software solution for all maintenance activities that are performed within a company. Supports cost-efficient maintenance methods, such as risk-based maintenance or preventive maintenance, and provides comprehensive outage planning and powerful work order management. My main role was get implemented plant and maintenance with only SAP standard to meet current business requirement. **SAP PM is successfully implemented in Banswara Syntex. My role was to educate how to create notification order, maintenance order, preventive orders, cost analysis against planned verses actual, maintenance task lists (functional, equipment base and general), daily work clearance, bills of material, create measuring point and counters, MIS reports against maintenance history.**

SAP QM (Quality Management) is an integral part of several key business processes of SAP like production, sales, procurement, material management, etc. SAP QM is successfully implemented in Banswara syntax limited. **My role is to get implemented QM module with SAP standard only. I have educated user to create Inspection lots, record usage decision, result recording against inspection lot, QM work centers, Test report creation according to MIC and method, Automatic inspection lot generation and result recording at the time of material procurement, create customer wise inspection plans and result recording against inspection plan, create manual inspection plan and Z report created as per customer format to fulfill business requirement etc.**

SAP WMS (Warehouse management system) The SAP Warehouse Management system (WMS) provides flexible, automated support in processing all goods movements and in managing stocks in your warehouse complex. The system supports scheduled and efficient processing of all logistics processes within your warehouse. **WM is implemented successfully in Banswara Syntex limited. My role is to educate create Transfer request tcode, create transfer order tcodes, Bin status report, use LLVS tcode,WM posting change,WM transfer posting ,Inventory And Valuation in WM, Create Block, Bin and Quants etc.**

Application software

➤ Project – Procurement and Inventory Control Module

Client – Frontline Information System (UAE)

Platform – Windows 10, .net Framework 4.0

Tools & Technology: - Sql server 2012

Team Size- 3 Member

Description: - Procurement and Inventory Control module offers a host of advanced procurement and inventory features such as material requisition, purchase enquiry, supplier quotation analysis, purchase orders, good receipt, purchase invoice, store issue, stock adjustment and stock transfer. Many features including management of multiple storage centers and locations, specialized inventory management features (serial numbers, batch tracking, and special stock), which are part of a diverse capability in inventory management, are included as standard functionality within the Procurement and Inventory Control module.

➤ Project – Facility Management System

Client – Frontline Information System (UAE)

Platform – Windows 10, .net Framework 4.0

Tools & Technology: - Sql server 2012

Team Size- 3 Member

Description: - FMS is a modular facilities management system that works together with your business and allows day-to-day management of the processes, automates operations, provides a management dashboard for critical analysis and enables enterprise wide control in the most intelligent and efficient way.

➤ Project – Fixed Assets Management

Client – Frontline Information System (UAE)

Platform – Windows 10, .net Framework 4.0

Tools & Technology: - Sql server 2012

Team Size- 3 Member

Description: - Fixed Assets Management designed to providing you with fast, dependable, customizable fixed asset management to maximize your bottom line. Fixed Assets combines acknowledged depreciation expertise and user friendliness with the added power, data security, and functionality that your business situation demands.

➤ Project – Project Management

Client – Frontline Information System (UAE)

Platform – Windows 10, .net Framework 4.0

Tools & Technology: - Sql server 2012

Team Size- 3 Member

Description: - Project Management is a key component in monitoring the progress of your projects and ensuring that your business remains profitable. Horizon Project Management is essential to organize work and allow visibility into a complex operation.

➤ Project – Indent Management System

Client – Banswara Syntex Limited

Platform – Windows 8.1, .net Framework 4.5.2 and WCF Service

Tools & Technology: - Entity Framework 5.0, Sql server 2008 R2, Linq, Infragestic 15

Duration – 1 month

Team Size- 1 Member

Description – project is windows application that uses WCF service hosted on IIS 7.0. This is store indent project with this user is capable to enter, update, view or delete any entries according to their user rights from remote locations.

➤ Project - Civil management

Client – Banswara Syntex Limited

Platform – Windows XP, Visual Basic 6.0 and Windows server 2008

Technology Used – Visual Basic 6.0 and sql server 2008, Crystal report 8.5 and 11.5

Duration – 1.5 Month

Team Size – 1 Member

Description: - Inventory of how much material is issued by company and how much is used. This software gives complete detail to Management about total estimation. (Total material required and total material consumed)

Responsibilities

- Requirement gathering, Post Implementation and maintenance

➤ **Project - Receipt management**

Client – Banswara Syntex Limited

Platform – Windows 7, vb.net and Windows server 2008

Technology Used – **Vb.net** and Sql server 2008 and third party tool Infragestic Grid, Crystal report 11

Duration – 15 Days

Team Size – 1 Member

Description: - This software is used to give information about how much chemical is required to finish a particular fabric quality. Every fabric quality has different ingredient to finish. So, this software provides information on how much and what type of chemical should be used to finish particular fabric.

Responsibilities

- Requirement Gathering, Implementation and Post maintenance

➤ **Project - Cloth sale management (Fabric Dispatch software)**

Platform – Windows 7, vb.net and Windows server 2008

Technology Used – Visual Basic 6.0 and SqlServer 2008, Crystal report 8.5

Duration – Maintenance of existing in house ERP software

Team Size – 2 Members

Description: - Handling all kind of sales and dispatch activities. It includes Packing Slip Generation, LR management, Excise documentation and Invoice generation etc.

Responsibilities

- Requirement gathering, Post Implementation and maintenance

➤ **Project - Process management**

Client: - **Banswara Syntex Unit BTM**

Platform – Windows 7, vb.net and Windows server 2008

Technology Used – Visual Basic 6.0 and sql server 2008, Crystal report 8.5

Duration – Maintenance of existing In house ERP software

Team Size – 2 Members

Description: - Managing Stock Inventory of fabrics at All stages (Grey, Process, Grading, Packing and Warehouse) and Generation of Grading Sheet and Packing Slip.

Responsibilities

- Requirement gathering, Post Implementation and maintenance

➤ **Project - Garment management (complete inventory for garment)**

Client – **Banswara Garments limited**

Platform – Window XP, Windows 7, vb.net and Windows server 2008

Technology Used: - Vb.net and Sql server 2008 and third party tool Infragestic Grid, Crystal report 11

Duration- 1 Month

Team Size- 2 members

Description: - Inventory of Garment at company - > Dispatch to warehouse - > dispatch to our company outlets around india.

Responsibilities

- Requirement Gathering, Implementation and Post maintenance

➤ **Project - School management**

Client – **New Era Public School Bhilwara**

Platform – Window XP, Windows 7, vb.net and Windows server 2008

Technology Used: - Vb.net and Sql server 2008 and third party tool Infragestic Grid, Crystal report 11

Duration- 22 Days

Team Size- 2 members

Description: - Attendance, Fees Collection (Quarterly, Half yearly and Annually, Teacher Time Table, Mark sheet printing, automatic student migration to next class etc.)

Responsibilities

- Requirement Gathering, Implementation and Post maintenance

➤ **Project –Payroll**

Client-Pyrotech Udaipur

Platform – Window XP, Windows 7, vb.net and Windows server 2008

Technology Used: - Vb.net and Sql server 2008, Crystal report 11

Duration:-20 Days

Team Size -2 Members

Description:- Attendance of staff , PF , ESI , Bonus, LTA , Medical ,Incentive, Designation ,Department , Salary calculation , pay slip generation , Education , New Wants

Responsibilities

- Requirement gathering, Post Implementation and maintenance

➤ **Project - Credit management**

Client – Anjali Communication Bhilwara

Platform – Window XP, Windows 7 and visual basic 6.0

Technology Used: - Vb.6.0 and Ms Access, Crystal report 8.5

Description: - Prepared for mobile shop to maintain due against customer. Reports according to customer (month wise collection, day wise collection etc.)

Duration :-10 Days

Team size -1 members

Responsibilities

- System Analysis & Design
- Data structure designing with business constraints, stored procedure implementation
- Coding, Testing, Implementation
- Report designing

➤ **Project -Hotel Management**

Client- Saffron Bhilwara

Platform – Window XP, Windows 7 and visual basic 6.0

Technology Used: - Vb.6.0 and Sql Server 2008, Crystal report 8.5

Description:- complete hotel and restaurant software. Software provides information about total rooms, room availability, and rooms are in maintenance, laundry, billing etc. **And in restaurant table wise billing etc...**

Duration:-25 Days

Team size -3 members

Responsibilities

- Requirement Gathering, Implementation and Post maintenance

Website URL'S-

➤ **Project – Bhilwara City Portal Language – C#,**

Platform – Windows XP and window 7

Web Technologies: HTML, CSS, Ajax, JavaScript, JQuery, XML, Web service

Framework Used – .Net 3.5

IDE/Tools : Visual Studio 2008, Adobe Photoshop

URL – www.bhilwaraonline.in

Scope- This is a Bhilwara city portal. With this website the following operation can be done such as sale, purchase, and lease (Land, Office Premises, Hotel, Restaurant etc.). We Can Read daily newspaper, matrimonial work, yellow

pages, information about complete city, job posting etc. This site is complete based on CMS (**content management system**)

Responsibilities

- Requirement Gathering, Implementation and Post maintenance

MIS reports on static IP

Description: - This web site is used to show MIS reports to management on specified filters. This project is prepared in .net framework 3.5 with crystal report 11.

➤ **User Timesheet and Phone bill summary on static IP**

Description: - This web site is used to show in and out time of an employee with the help of web browser. By this web employee can also see their mobile bills and their usage. Project is prepared in .net framework 3.5 with C# and SqlServer 2008.

- www.banswarasyntex.com

Description: - This is static website used to show all company detail, Like balance sheet in pdf files, detail related to fibre,yarn,finish fabric and garment . Website is prepared in HTML, JavaScript and JQuery.

- www.maheswaribiodata.com

Description: - This is a Matrimonial site where we can search bride and groom according to filters (age wise, religion wise, education wise etc.). of well managed admin panel. Website is prepared in .net framework 3.5 with sqlserver 2008 and html, javascript, JQuery

- <http://www.virtualinfosystems.com>

Description: - This is a static website of complete company detail what company deals with like (Company detail, portfolio, About us, Send bulk sms,Contact us etc. Website is prepared in HTML, javascript and JQuery

- www.stmatthewsbanswara.com

Description: - This is a dynamic website of school and it is completely CMS based, where every block and web page can be managed with the help of admin.

Website is prepared in .net framework 3.5 with SqlServer 2008,Jquery ,javascript etc.

- www.nutechglobal.com

Description: - This is static website used to show all company detail, Like balance sheet in pdf files, detail related to finish fabric.Website is prepared in HTML, JavaScript and JQuery.

- www.ankurfurniture.com

Description: - This is a dynamic website of furniture mart and it is completely CMS based, where every block and web page can be managed with the help of well managed admin panel.Website is prepared in .net framework 3.5 with SqlServer 2008, JQuery and JavaScript etc.

- www.dwarkesh.co.in

Description: - Dwarkesh Pharma is a part of Dwarkesh Group of Companies, The main activity of the group is to manufacture and market Ayurvedic Medicines and Herbal Products, with main focus on **Digestive and Delicious Churan - Goli**, which are over the counter (OTC) Ayurvedic Pharma Products for direct application.

Website is prepared in HTML,Jquery and javascript etc.

Responsibilities

- Requirement Gathering, Implementation and Post maintenance

Clients

- St Mattews School
- Dwarkesh
- Mecardo Textile
- Maheshwari Samaj Bhilwara
- Neutech global
- Ankur Furniture

Language – C#/Vb.net, SqlServer 2005, 2008
