## **(Current B.Sc. I.T. Project)**

### **Online Movie Ticket Booking System:**

This project is aimed at developing a ticket reservation system for Cinema Halls. The "ONLINE TICKETING BOOKING SYSTEM" is an Internet based application that can be accessed throughout the Net and can be accessed by anyone who has a net connection. This application will automate the reservation of tickets and Enquiries about availability of the tickets. This application includes email confirmation for the tickets. This is one of the important features of our system. By examining the existing system on the internet, we found that there is no such function available at this moment, so we try to include it in our system. To protect the benefit of the cinema, we will not give the money back to the customer, instead the customer has to visit cinema hall for further process. So, the

customer can get the money from the cinema hall. Hence both the customer and the cinema can sort out further matter.
