- Basic Knowledge of automation testing using **Selenium Web-driver.**
- Comfortable in using **MS-Office, Android Studio, Eclipse-IDE.**

PROJECT AND SEMINAR:

Project Name: Online Food Booking System(Khana-Khazaana)

- **Technology Used-**
- **1. Front-End:-**HTML, CSS and JAVASCRIPT.
- **2. Back-End:-**Core-Java, Servlet, Xaamp Server.
- **Description:** This Web-application is useful in making an order via online booking system where admin can manage food-menu and customer's orders and cart's .Customers can make their order online by placing order by selection through food-menu and She/he can manage his cart by deleting or placing order via email-id.Thus every customer can maintain or view his order history in my orders list. Thus this web application is useful in booking system of food online.

• **Project Name:** Online Library Management System (LMS)

- **Technology Used-**
- **1. Front-End:-**HTML, CSS and JAVASCRIPT.
- **2. Back-End:-**Core-Java, Servlet, Xaamp Server.
- **Description:** This Web-application is useful in library as higher authorities can add Librarian who can manage books, issue-books to students online where admin have authority of adding and deleting librarian and on the librarian side he/she can manage books by adding and deleting books thus issue books to students by his Student-id.Thus this system can be useful in colleges as it reduces the queue from library and students could easily issue books online.

• **Seminar Name:** Online Pizza booking system

- **Technology Used:** Android
- **Description:** As the system is useful in the online booking of the pizza through this application we can place an order from any location with the order value added in the cart or the added items can be removed from the cart.
- I have given a Seminar on "**ONLINE VOTING SYSTEM USING ANDROID**".

• **Project Name:** IOT Based Bike Black Box(B3)

- **Technology Used:** Embedded System and Android.
- **Description :** As this system is useful in the vehicle diagnosis through android application where user can check all the parameters of his bike and also turn Engine Ignition ON/OFF automatically through this android application, Also user gets notification every time when he/she crosses the pre-define parameters value inform of text messages.

REWARDS AND ACHIEVEMENTS:

- Secured **2ND POSITION** in football at intercollegiate sports meet "**RANAANGAN 2015-16**" of Zeal College of Engineering and Research.
- Participated in many Intercollegiate and National Football Camps/Tournaments.
- Won many accolades in Athletics (Race, Relay, and Jump) at school/college level tournaments.

ABOUT ME:

I consider myself to be a **highly self-motivated, self –disciplined, confident and adaptive person** who believes that commitments should be fulfilled under all circumstances. Given an opportunity, I am confident that I will prove to be an invaluable asset to the organization.
