- 2. Title: Discharge Turn Around Time(TAT) of Cash patients**
Organization: Rajiv Gandhi Cancer Institute & Research Centre
Duration: 1st June to 15th July, 2017
- 3. Objective - To understand the working of medical record department in hospital.**
Learning outcomes- we understand the system of the storage of medical records in that hospital from the viewpoint of filing and numbering. We critically analyze the system and find out the lacunae in it. Then we submit the analysis and suggestions for removing the lacunae and we also build a SOP for storage of medical record of that hospital.
- 4. Objective- Improving quality in hospitals.**

Learning outcomes- I have learned how to implement the quality tools/ parameters in healthcare industry to improve the quality.

5. Objective- licensing and certifications processes required for the establishment of a new hospital.
Learning outcomes- I have learned about the certificates and licenses required about during the establishment process of hospitals. And learnt about the processes followed for the licenses and certifications.
6. Objective- Patient safety management program inside the hospital.
Learning outcomes- Patient safety is how hospitals and healthcare organization are preventing accidents in hospitals and protecting patients against Errors, injuries, accident and infections and other adverse effects.
