Academic Project

1. Title: JAVA EDITOR

Description: This editor is used to write any java program easily. It is helpful to compile and run the java program in the same window. It is platform independent.

2. Title: Parent Teacher Interaction Application.

Description: In this system we are going to develop a mobile application for parents and teachers. This application includes three modules namely parent, teacher and admin (website). After the registration procedure, suitable credentials are received by the users, which they further use it for login purpose. Admin is able to upload the results of students, which can be viewed by the parents. Notifications such as the meeting schedule, events, Dress code, alerts, placement Notifications etc. are send to the users on timely basis. Functionality to update attendance is provided to the teacher.
