## PROJECTS UNDERTAKEN

- **Painting Gallery**

Painting Gallery is a mini-project based on DBMS which is an online application used to display and sell painting works of artist. Artist can register online for being a member in painting gallery and each artist can upload the digital copy of their art work under categories. They can host their art work either for auction or for fixed price. This was developed for the people who loves art.

- **White Pages-People finder**

People finder is a mini-project based on File Structures. This is a C++ program and structure used in this is Indexing. This was developed for maintaining the record of the nearby businesses within the city.

- **Teacher's Hub**

There are a number of websites which provide the various subject notes online which may be correct or may not be. The syllabus keeps on changing every year, for which dated one are removed. Based on the current year and the scheme the subject notes are uploaded by the lecturers who are handling them, which will avoid the confusions and misguidance. This website provides you the exact information of the Subject.

## **INTERNSHIPS**

- **CITY ONNET, Mysore**

I attended internship at City On Net, Mysore. I worked on web scrapping which was collecting the information about products and storing it in spreadsheets.

## **HOBBIES AND INTEREST**

- Dancing
- Cooking
- Craft
