Maharaja Surajmal Institute Of Technology, New Delhi	Mira model School,New Delhi	Mira model School, New Delhi
Current	2017	2015
8.901 cgpa	94.4%	9.2 cgpa

SKILLS:

Hard skills:

Languages Known: Java , JavaScript , Node.Js Enthusiast , React.js

Soft skills:

- Good Orator
- Can lead a team
- Self Motivated

TRAINING:

• Java Industrial Training at Webtek labs, Delhi *June 2018*
Learned Java from basics to expert level and gained insights of JSP.

PROJECTS:

- **Mobile Creches Website:** Mobile Creches, a NGO whose website was not at all mobile friendly, Obsolete(The data was not updated).New and completely revamped version of the same website was given by me. Languages like Javascipt, Html, Css were used. With the support of backend the website was updated successfully. https://github.com/sakshiii/final_mcrech

- **Mini News Catcher:** It's an application that catches (scrapes all the data using cheerio)all the trending news headlines and then automatically opens up the browser using Node.js module puppeteer , posts these scraped headlines to twitter and then finally gives you video experience of the latest News. https://github.com/sakshiii/NewsCatcher

- **YoutubeToMp3:** It's a small nodejs project that uses puppeteer as a module and as the name suggests it automatically opens up the browser and first plays your favourite song on youtube and redirects it to another website via automation and then finally downloads it. https://github.com/sakshiii/YoutubeToMp3_Nodejs

- **Tic-Tac-Toe :** As the name suggests it's a tic-tac-toe application that is built using react.js. It basically uses two states i.e '0' and 'X'. Its a multiplayer game and if a user is able to make one continuous row or column or a diagonal with same states then that player wins the game. https://github.com/sakshiii/Tic-Tac-Toe
