WORK EXPERIENCE

HELIOS SOLUTIONS

QA Engineer | December 2019 - Present

Worked on multiple projects spread across different domains: **DineNow which is a food ordering application** in Germany, **Immersive Square which is an Event Management and Booking website** and **Woerden which is a CMS website** in Netherlands.

Have been an integral part of 2 releases and multiple builds to perform **Sanity checks, Smoke testing and Regression testing** on existing functionalities while working on Dinenow which is the biggest project the company has undertaken. I have also handled testing of front end Android and iOS applications. Successfully **written and executed test cases** for newly developed features.

Have been the sole QA Engineer for a project which involves the development of a website for the company FPT Vimag. I have estimated resources and time and have also performed **cross browser and cross platform testing**.

BIGBASKET

Software Test Engineer | February - April 2019

Helped in testing the BigBasket website and developed a **web-crawler** for the website having 300+ links and web pages. Also automated a new feature: Cash Collection Module, on the BigBasket admin website by creating test cases in Java on **Selenium**. Performed test automation within their framework to completely automate the back-end features of their website. Performed Smoke, Sanity and Regression testing on their ecommerce website to make sure that it functions properly with apt features.

GTS FZCO

Web Designer | January 2016

Contributed in the development of the company website for GTS FZCO, Dubai, and made major contributions to the content of their website. Designed the website to **improve traffic and attract more customers and clients** to improve business and expand reach into market. Also helped provide an **attractive and innovative design for their website** by providing insight and content of the services they provide.
