10+2(Sc.)	2013	WBHSE	59
10	2011	WBSE	77

Academic Project

Project Title: - Encoding Techniques in digital communication Systems (PCM)

Description: - Digital Communication is the process of efficient Transmission of Analog signal from Transmitter side to the receiver in the form of digital data stream. We have successfully encoded the analog single frequency wave into digital data stream using ADC and decoded that into analog wave which was nearly exact of that wave form.

Training & Certification

12 days' vocational training on AM & FM broadcasting technique related systems, their functions from Prasar Bharati Akashvani Bhavan.

9 days' vocational training on telecommunication & signalling systems from Eastern Railway.

Application package & tool : MS Office, MATLAB, PSpice.
