About me

I have been working on graphic designing and editing for the last 6 years very efficiently. I have been doing a lot of work in various companies in my country. I'm skilled in logo design, poster design, banner design, image editing, clipping path, background removed, hair masking. all the things. I've been doing. i have also knowledge in motion designing, video editing and animation. I also love to experiment with new style and like to take new challenges. I have also good experience in e-commerce industry.
