SUMMARY

Highly organized and detail-oriented, hard working and self motivated towards the work which has been provided. Strong desire to learn new thing, explore new ideas, and to enlarge my field of interest and knowledge. Worked on many projects in a very short duration managing time very precisely.

PROJECT

Cool Milky Zone   05/2022

- UI UX design project, made using Adobe XD.
- An application for the e-commerce smoothie selling company.
- Made a wireframing network as the app works.
- Used various mood boards, designed attractive background, buttons, transitions and animations.

Netflix Web-page   02/2022

- Designed the clone front end using HTML, CSS & JavaScript.
- This project help me to build a good understanding of front-end development.

Weather App   02/2022

- A web page using API and front end to check the current weather of any particular city
- Used the free API available publicly on google to develop this app.
- The interface is attractive and user friendly, learned to implement API.

Drum Kit   02/2022

- Developed software using HTML, CSS, and Javascript.
- There are several buttons on the interface which will play the sound when you press them.
- Most of the page entirely based on Javascript and CSS.
- I have learnt to use audio with Javascript.

Hulu Movies - web page   01/2022

- Designed the web page clone using HTML, CSS and JS
- Learned front end to implement in a professional web page.

Scientific + Standard Calculator   11/2020

- Switchable Scientific calculator using Python GUI
- Used various modules and functions to create it.

INTERNSHIPS

Software Development (01/2022-03/2022)

- Focused on mainly front end web development
- Created front-end projects as instructed.
- Worked on various front end web pages and learned the advanced front-end development.
- Worked on HTML, CSS and JavaScript and get the letter of recommendation.

Cyber Security Intern (04/2021-06/2021)

- Worked on penetration testing
- Conducted various live cyber attacks such as sniffing, reconnaissance, information gathering, Man-in-the-middle attack, SQL injection, and lastly the report making.
- Managed team efficiently and formed the final report.

EDUCATION

Lovely Professional University   2019-Present
B.Tech Computer Science & Engineering
CGPA: 7.15

Lancers Army School   2018
12th
Percentage: 71.2%
