Projects

Risk and Return Analysis of Mutual Fund Industry in India

The mutual funds is one of the important classes of financial intermediaries enabling thousands of small and large savers across India to participate in and get the benefits of the capital market. The mutual funds have a lot of potential to grow but to capitalize the potential fully, there is a need to create and market innovative products and frame distinct marketing strategies. The objectives of the study are to analyse the growth and development of Indian mutual fund industry and to identify the challenges confronting by the industry and to exhibit the best avenue for investor to invest depending on his perception.
