ACADEMIC PROJECTS

B.E. Major Project: "Eye Protector Circuit For TFT Screen Using Arduino And IR Distance Sensor"
(year 2017-2018)

Supervisors :Prof. V. Sarsar, Pro. D. J. Tuptewar, Dr. Mrs. K. C Jondhale (MGM's COE, Nanded)

The motive of this project work was to provide a prototype device which will help to keep the mobile phone on the safe distance from eyes to reduce the side effects of blue light transmitted from the mobile phone's display using interfacing of microcontroller device and IR distance measure sensor.

T.E. Mini Project1 : "Butterworth Filter Kit"
(Year 2016-2017)

Supervisors: Prof. S. L. Kotgire(MGM's COE, Nanded)

In this project, design and construction of low pass and high pass active filters using butterworth techniques is used for obtaining maximally flat magnitude response filters, optimized of gain flatness in passband.
