Aspiring for a challenging position with a leading organization, where my knowledge and experience can be enriched and can enhance the organizations bottom line profitability

SUMMARY

- **I am Senior Principle Development Engineer with 8+ years of professional experience in all stages of SDLC (Software Development Life Cycle)** involving studying of the user requirements, analyzing, designing, coding, implementation, debugging, testing, deployment and documentation across diverse industries / work environments.

- Experience in Finance, Real-Estate, HealthCare and Storage **domain.**

- Good hands on knowledge of **OOPS (Object Oriented Programming Structure)** and **Agile** methodology.

- Hands on technology experience of designing and developing software applications with **Microsoft .NET Framework 1.0/1.1/2.0/3.0/3.5 using C#, VB.Net, Entity Framework, WPF and ADO.Net.**

- Extensive experience with **Web technologies like ASP.NET, Web Services, IIS 5.0, 6.0, HTML, ASP, XML, SOAP, JavaScript, SSRS.**

- Experience designing and/or developing solutions for a **Service Oriented Architecture (SOA).**

- Proficiency in **Visual Studio 2010/2012/2015.. and SQL Server.**

- **Proficiency in GIT, JIRA(Stash), Open-Project and TFS for repository management**

- Sound knowledge of **3-tier and N-tier** layered architecture.

- Sound knowledge of several **DESIGN PATTERNS** like **Singleton, Factory, MVVM and ASP.NET MVC**.

- Extensive experience in creating **rich content Web-Forms, Win-Forms (Windows Forms), Web User Controls, Custom Control, Server Controls, Windows Service and Web Service.**

- Extensive experience in web-based page and site designs using **HTML, DHTML, CSS, Themes, Master Pages, Site Map, JavaScript and AJAX.**

- My strengths include working well under pressure, strong oral/written communication and presentation skills, assertiveness and quick learning ability.

OFF NOTE:
- Interacted with clients from different parts of the world viz., USA, Australia, Eastern Europe, China & Singapore

TECHNICAL EXPERTISE

- Operating Systems:	Windows, Linux
- Web Technologies:	ASP.NET MVC, Rest/Web API's, ASP.NET
- Windows	Win Forms, WPF, XAML
- Languages:	C#, VB.NET.
- Scripting Languages	HTML,XML, CSS, Java Script, Python
- Packages:	MS Office-2007/10..
- Development tools:	Visual Studio 2008-19
- RDBMS:	SQL Server 2005-19, MySQL, SQLite, PostgreSQL
- Middle Tier:	IIS, ADO.NET, Entity Framework

• Design Patterns	Singleton, Factory , Adapter Pattern, MVVM, ASP.NET MVC

FUNCTIONAL EXPERTISE

- Product Development
- Leadership / Team Work
- Quality Management
- Client Need Analysis
- Web-Based Software Designing
- Customer Relationship Management
- Object Oriented Analysis
- Organizational Skills

LANGUAGE SKILLS

- Fluent in English, Hindi and Gujarati

HOBBIES

- Enjoy Cricket, Swimming and Love to travel.

EDUCATION

Education	University/School	GPA
B.Tech in Bioinformatics	Dr. D.Y Patil University, Pune	7.5

CAREER TRAJECTORY

Organization	Designation	Duration
Calsoft Inc Pvt.Ltd	Sr. Principal Development Engineer	Oct 2019 – Present
Calsoft Inc Pvt.Ltd	Principal Development Engineer	September 2018 – Oct 2019
Calsoft Inc Pvt.Ltd	Senior Development Engineer	July 2017 – August 2018
Yardi Softwares Pvt.Ltd	Sr. Software Engineer	July 2015 –Jun 2017
Flologic Systems Pvt.Ltd	Sr. Software Developer	Oct 2012 – Jun 2015

PROJECT DETAILS

- **Storage Craft ShadowXafe Integration with Connectwise (C#, WPF, MySql , Web API's, Python & MVVM)**
  - o ShadowXafe is a suite which manages the entire infrastructure from one single instance.
  - o We are integrating this product inside the Connectwise suite to manage the specific instances from one single application.
  - o There is one windows service running on the server which keeps pulling the data from different instances and dump inside the Automate server centralized DB
  - o Frontend is implemented using WPF and C# is used as a programming language built on MVVM architectural pattern
  - o Playing a lead role for implementing this application and communicating with the customers across the globe.

- **Storage Craft Plugin Integration with Connectwise (VB.NET, WPF, MySQL, SQLite , Web API's & MVVM)**
  - o StorageCraft plugin is designed to get SPX to integrate with the connectwise suite which does backup and recovery for the instances.
  - o Leading this project with 2 more resources.
  - o Playing a roleof a BA as well as of an individual contributor.

- **Yardi MarketPlace (JAVA, ORACLE)**
  - o Yardi Market place is an E-commerce platform where all real estate related products are listed.
  - o It was an ongoing project. I joined in between and developed a dedicated web portal for client (**CBRE Properties**).

- o Yardi Marketplace makes procurement software that helps property owners and real estate managers more effectively manage the purchases they need to take care of their properties. The company's products include an online product catalog and buying-power aggregation site for routine maintenance, repair, and operating products; a Web-based bid management system for property-related services contracts; and a tool for reducing the costs of capital expenditures procurement.
- o My role is this project is a backend developer wherein my responsibilities include development of new and modified the current functionality as per the client's requirement.

- **Yardi Matrix (C#, SQL Server,Javascript, SSRS, CSS)**
  - o Yardi Matrix is a web based portal where all multifamily, commercials and self storage properties are listed.
  - o It was in house product which is created mainly for real estate brokers and agents to track the complete information of any residential/commercial/self storage property.
  - o Product has two sections Data-Entry a backend side and a subscriber portal which is visible to end users. Being a part of yardi matrix team, I played a role of backend developer. Development is done in C# with SQL server as a database.
  - o Agile SDLC has been followed for this project.

- **IT Asset Management System & Laptop Tracking Solution using RFID. (C#, ASP.NET, SQL, HTML, JS)**
  - o It Asset Management System is designed to provide the solution to organizations having large Asset Base (IT or NON IT) for tracking their asset base through Barcode facility.
  - o I have been parallelly handling this project for HSBC and Vodafone India.
  - o Development of It Asset Management System Process flow in Work flow Engine.
  - o It Asset Management System modules: Asset Allocation Request, Restack Request (Transfer Request),Seat Management and Seat Allocation Request, Employee Exit, Barcode Print Module, Purchase Request and AOP Module.
  - o Implemented Laptop Tracking System using RFID Readers, RFID Tags and UHF Cards. System takes data from the existing tool and use this for verification of the users carrying the assets.
  - o Perform security testing and make the application secured from cross-site scripting and Sql Injections.
  - o Integrated Barcode printer with the application for printing the 3D barcode tags for tracking purpose.

- **Enquiry to Delivery Tracking System. (C#, ASP.NET, SQL, HTML, Javascript, CSS)**
  - o Developing this project to provide the solution to organization to track the Status of the Enquiry Processed.
  - o This system was designed to track the status of the enquiry and to update each and every employee in the organization during different steps of the approvals.
  - o This application gives various reports like Enquiry Status Report, Audit-Trail Report, Employee Time-Span Report etc.

TRAINING & CERTIFICATION

Completed following trainings form MZOS:

- o .Net Stack (C#, ASP.NET MVC)
- o Sql Server 2008.
- o Application Development Strategy.

AWARDS & APPRECIATIONS
- Won a best performer award for last quarter in Calsoft Pvt.Ltd
- Received appreciation from Sr. Project Manager of HSBC for providing them better solutions at every stage and accomplishment of milestones before deadlines.
- Won "Spot Award" at Flologic Systems for successfully migrating customer workloads to production.

GLOBAL EXPOSURE
- Interacted and worked with clients from different parts of the world
- Coordinated with associates of HSBC at global level.
