2017

DTE Bangalore

Diploma in mechanical engineering
67
2013

KSEEB

SSLC
64.1
2010

PROJECTS

Pneumatic collapsible steering

3 months

Reading books

Surfing net

Listening music

The steering wheel is the important cause of fatal injury for drivers in frontal collision. When frontal collision occurs due to kinetic energy of driver or occupant body it moves forward against steering wheel and wind shield. Driver head and chest hit the steering which may cause server injury or death. Considering the injury of potential of steering wheel we are representing a new idea pneumatic collapsible steering column.

PERSONAL STRENGTHS

Team player and self believer
Time management
Self-motivated
Good planning
