PROJECTS

Karam Support System

SOFTPRO INDIA COMPUTER TECHNOLOGIES PVT. LTD.

- The main objective was to make module of Karam industries involving basic UI and database.
- Technologies Used: HTML, CSS, Python 2.7, MySQL.

TOHO

B. B. S. College of Engineering and Technology

📅 6 months

The aim of the project is to digitize the blood transfusion system and reduce the black marketing in the blood transfusion and also provide provision for online appointment system from doctors so as to stop the time wastage. There are 2 zones in this blood transfusion module. First one is NEEDY zone and another one is DONOR zone. Needy zone: posting request for the blood of specific group. Donor zone: has information of all the donor who are willing to donate or have donated in past. Online appointment system comprises of doctors information, who are categorized on basis of their specialty and you can search them accordingly. Every doctors information is displayed on the page and you can make online appointment and consult them as well. You can consult only after making payment of consulting fee.

SRIJAN : PUSH ON CREATIVITY

Founded By:

Anita Yadav (Me) and two other batch-mates

This is a Community where juniors are taught by their seniors. This community helps students to learn new technical skills from the start of their college life. Since I faced the same problem, that's why I took this initiative and made group with my friends.

What I learnt from SRIJAN?

Leadership

Handle different people of different places, managing them together.

Team-Work

We develop team work environment while training our juniors.

Work under pressure

Handle both semester as well as team, organizing events, giving classes.

Efficiency

Work increased many times as I had to deal with my studies as well as help others in their studies. I successfully did that.

Multitasking

Study, work, organize events, meet people, answer the faculty about the students etc.

MY LIFE'S PHILOSOPHY

"Never stop thinking, the day you do that, your knowledge becomes redundant."

TECHNICAL SKILLS

HTML ●●●●○

JavaScript ●●●○○

CSS ●●●○○

OOPs ●●●○○

Python ●●●○○

STRENGTHS

Hard-working　Team-player
Learner & Adaptive
Motivator & Leader

EDUCATION

B.Tech. in Computer Science & Engineering

B. B. S. College of Engineering and Technology

📅 Jul 2015 – June 2019

### 12th in Mathematics

Mary Wanamaker Girl's Inter College

📅 Jul 2014 – June 2015

10th in Science

Ishwar Sharan Girl's Inter College

📅 Jul 2012 – June 2013

A DAY OF MY LIFE

Net Surfing

Sleeping and dreaming

Hobbies

Cooking and Eating

Designing and Sketching

Coding

MOST PROUD OF

National Soccer Player
Selected 3 times for U. P. Girls Soccer Team

Best Goal Keeper Award
Received best goal keeper award in open state football tournament.

1st position
Got 1st position in G.K. quiz competition at school.
