@ Carrier Objective

To put my all knowledge and skills which would in result be the growth of Company and in returns experience for the work handled by my team in best way and can minimize error for further main tasks given to my team.

@ Education

Rashtrasant Tukadoji Maharaj Nagpur University
62% **B. E. in Mechanical Engineering (2016-20)**

Maharashtra State Board HSC
55% **12th Science (2015-16)**

Central Board of Secondary Education
76% **10th (2013-14)**

@ Projects

Automatic Typing With Python

In this Project I've created different functions that can read file and gives different words that can be typed automatically just we have to specify that 1st so that words will be generated starting with that input 1st letter, and then it gets typed automatically on PC and even on Phone.

Development Of IOT Enable Air Compressor

In this project, a simple Air Compressor is transformed into IOT based Air Compressor, in which we can read the current pressure of aerosol jet which is flowing to the CNC machine, and current temperature of machining zone, so that we can vary pressure of aerosol according to the temperature and even we can manually control the pressure of aerosol with help of app.

@ Interpersonal Skills

Attention to details.
Time Management.
Team Player.

Cognitive skills.
Growth Mind Set.
Creativity.

@ Technical Skills

Python
Java
Django

MySQL
Git

@ Internships

J. P. Electricals
Kedia Auto Services PVT. LTD(HYUNDAI Authorized)
Dis-assembly & Assembly of 2-Stroke & 4-Stroke I.C.
Engine & Differential.
Dis-assembly & Assembly of Air Conditioner.

@ Certification

Python3
Design Practice-II (Elite at 70%).
Paper Presentation
ROBORACE

Declaration: - I hereby certify that the above mentioned details are true to best of my knowledge.

Date :-

Place :- Nagpur
