3.5 years of rich experience in Technical support with development on retail background. And now looking for a job transition as a DevOps engineer in an esteemed organisation where i can put my DevOps skills to the best of my knowledge and can give my career a boost towards success.

PROFESSIONAL EXPERIENCE

National Informatics Center (NIC)

Junior Software Developer

New Delhi, IN | Feb '17 - May '17

NIC is a government organisation which provides ICT and eGovernance support to the Government for the last 4 decades and bridge the digital

Project:

Training Management Portal

- Training Management Portal is meant to address the training management need of the government organizations. It will help the organizations in capturing the Training demands/needs of the Elected Representatives and officials. Such detailed need capturing of training can lead to sizing the demand and preparation of training calendar and resource estimation.
- The training management portal also allows Resource Persons and Training Agencies to register with it(Provider agency). Agency registration includes the sharing of information on training venue, infrastructure, thrust areas, faculty, resource material availability etc.
- Once the training calendars are published, it facilitates the Training organizations (i.e. Providers) in following up of the activities leading to organization of training.
- The portal acts as a single platform for consumers(trainees) and providers to know demand and supply and facilitates the intermediate processes including registration, alerts, nomination, attendance of trainees in a course, certificate generation, feedback etc. 1

Role

- I was the part of 20 member's team where my role was to develop and support the Portal.

Vinculum Solutions Pvt. Ltd.

Software Engineer

Noida, IN | Jun '17 - Present

Global Software Company enabling OmniChannel Retailing. Help brands and retailers to easily scale, reach and delight customers across

Project:

POINT OF SALE(POS)

- A point of sale system, or POS, is the place where your customer makes a payment for products or services at particular retail store.
