PROJECT

B.C.A:

1) GARMENT MANAGEMENT SYSTEM:

Garments Management System is designed for better interaction between Management, Staff and Customers. Garments Mgmt. System handles all the requirements for easy Garments Management. This software will help the Garments Business to structuralize the activates and maintain data transparency where needed and properly store data for regular operation and future analysis.

MSc it:

2) CUSTOMER RELATIONSHIP MANAGEMENT:

Customer relationship management (CRM) is an approach to manage a company's interaction with current and potential customers. It uses data analysis about customers' history with a company to improve business relationships with customers, specifically focusing on customer retention and ultimately driving sales growth.
