Seasoned Test Analyst with 2 years of experience in designing and implementing quality assurance tests. Evaluated test objectives to develop and implement test procedures optimised for relevant results. Reported on test results and suggested interpretations relevant to product applications and further test development.

Work History

2020-01 -

2021-12

Software Test Analyst

AT&W

- Created accurate and successful test scripts to manage automated testing of certain products and features.
- Identified and tracked defects with JIRA and supported developers in resolving problems by completing additional tests.
- Reviewed all test cases and test scripts for quality and identified additional areas to review.
- Debugged code and located root causes of problems by reviewing configuration files and logs.
- Met with quality assurance, developers and project managers to assess scope and sequence of project.
- Gathered data on integration issues and vulnerabilities and outlined improvement recommendations.
